Sir

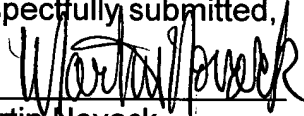

Responsive to the Election Requirement dated March 17, 2004, Applicant hereby elects, for the claims in the Application deemed non-generic by the Examiner, Species I as defined by the Examiner. The purportedly non-generic claims readable on Species I are as follows:

Species I: Claims 7-11, 24 - 25, 27, 32, 38 - 43, and 48 - 49.

REMARKS

Applicant has made the above election to comply with a requirement of the Examiner, but does not necessarily agree with the Examiner's characterization of which claims are generic and/or the Examiner's definition of species. For example, to meet the requirement for election, Applicant has elected claims 38, 48, and 49 as being in one of the Examiner-defined species (Species I) notwithstanding the fact that none of these claims recite a mechanical shutter.
